RETAIL TUB UPDATE

Please see the following guide outlining the tub refresh for Flagship and Classic stores.

This is also a great time for all stores to upgrade their in-store tubs to the latest models. (Please keep these colours to grey, silver or charcoal.)

This has been designed to ensure we display a large range of product showcasing two completely different looks.

TUB 1 - Premium Set-up

This tub is to have the best of the best product displayed.
This is to be a HiLux tub with an Ascent Canopy.

TUB 2 - Camping Set-up

This tub is to showcase how a camper may use their space and to showcase the new ARB Slide Kitchen.
This is a Ranger tub with a Classic Canopy.

*NOTE: Stores are not to keep bulk stock products in these displays.
They are for display purposes only.*

Please send through completed set-ups to your state VM rep.

VIC/TAS	- Jason Fear

Right : On-board twin compressor
CKMTA12 Twin Compressor Mountable 12V
Air outlet to be placed on the drawer face on the drivers side
using 171314 remote coupling kit, 171503 manifold
(required for pressure control w/ twin comp), 0740202 x2 hoses.

Left: Dual Battery
4300040 AUX BAT KIT WITH
12IN BATT BOX| WITH BOX,
LOOM & BCDC1225DARB

Tailgate Assist
(To suit your HiLux tub)

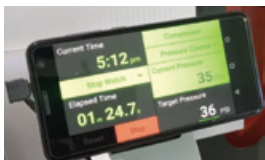

3614140 HiLux Summit Raw Rear Bar

TOURING

TUB 1 - LINX SET-UP

WHAT YOU WILL NEED TO SET UP LINX

LX100 - LINX
7450103SP - LINX Mount Kit

Mount the LINX to the Drivers side of the tub, please ensure this is in a visible spot and easily accessible for customers.

Air Compressors

7450107 - LINX Pressure Control Kit
7450116 - TPMS Bluetooth Module LINX
819107 - External TPMS Tyre Pressure Sensors

Battery

Inside drawer
x1 - battery at store discretion.

Fridges

10900041 - App Connect Bluetooth Module for fridge
x1 - one for the camping tub

Lights

NHT055VLI - Bushranger 5.5" Lights
x2 (left and right work light)

1780500 - BASE Light Bar

This is to be mounted on the end of the roof rack.

POWER

To power this display, stores are required to purchase a 240v to 12V Transformer.

Please contact your State Reps if you require further assistance.

Please ensure all cords are secured and hidden neatly and safely and that this area is cleaned regularly and kept dust-free at all times.

Example Power Set up

"We recommend a 35+ amp power converter for the BCDC input to allow for a safety margin. This will simulate an alternator input into the BCDC.

Use a fully sealed AGM battery in the battery box, such as a Century 148120. We also recommend that you use a 10900028 ARB Fridge Socket for the fridge power, and add other miscellaneous cig and USB power points around in locations that an average customer would find useful.

Adding a solar input labeled as such is also good practice.

Remember these are an example of your stores workmanship, take the opportunity to show off your best wiring!"

NOTE: PLEASE ENSURE ALL SET-UPS ARE COMPLETED HOW A CUSTOMER WILL USE THEM

TUB 2 - CAMPING SET-UP

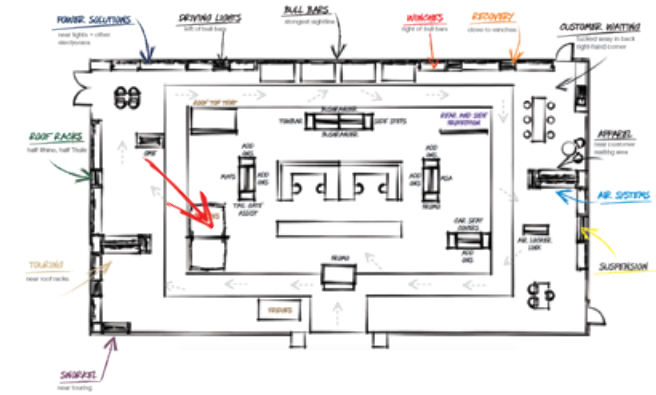

ARB Kitchen Drawers

- Camping tub set-up should be displayed in the tub facing away from the entrance.
- Ensure that the Slide Kitchen is only installed on the passenger side of the car.
- Stores with limited space are to ensure this is always packed away when not displaying to a customer.
- Stores (space permitted) are to have a camp set-up close by their touring zone:
 - Large stores - Standard camp set-up*
 - Medium stores - Small camp set-up
 - Small stores - No camp set-up

(**NOTE:** If you unsure which size store to follow or safe spacing distance, please contact your State VM Rep.)

**Standard camping set-up includes a swag and stretcher, camp chairs and a camp table.*

SDS102	SWAG SKYDOME SDS2 SINGLE
ARB4201	ARB COMPACT SLEEPING BAG
10500140	ARB STRETCHER QUICK FOLD
10500101	ARB CAMPING CHAIR TABLE
10500131	ARB COMPACT DIRECTORS

Bags must be stuffed full

(To be used inside the tub only)

***Photo an is example only, please follow descriptions.**

Rear Bar

3640130 Ranger Summit Rear Bar

Fitted to tub display.

Colour-coded to match tub

ADDITIONAL INFO

SAFETY

Due to a concern been raised with the weight of the slide kitchen counterbalancing the tub, all stores must secure the tubs before installing the kitchen slide.

Flagships - As these tubs are positioned back to back, please bolt a length of metal from the back of one tub to the back of the second.
(Any new upcoming stores joinery will be amended to include this.)

Classic/Stockists - Where possible these are to be placed back to back in the showroom and bolted the same way as above.
- Store tubs that can't be back to back are generally against a wall so the same principle can be applied from the tub to the wall.

If there is any other different situations we will treat this case by case, as this might be a great opportunity for stores to do a rezone before bolting tubs down. Please contact your State VM Rep for more information.

Each tub set-up **MUST** be signed off by your State VM Rep, to ensure the display is 100% safe.
