

SNORKEL

ECU Removal – Flagship Stores

4X4 ACCESSORIES

SNORKEL DISPLAY UPDATE

1, NEW BACKING PANEL

Stores will be sent a new snorkel graphic with the ECU section removed mid December. This panel is fragile, please take care when lifting with forklift. If you have not received your backing panel before Christmas, please email jenna@dlcollective.com.au

2, HOW TO REMOVE ECU DISPLAY

Unbolt and separate brackets and carefully set aside. Remove backing panel and dispose. Backing panels are recycled and recyclable and can be broken up and placed in your recycle bin. Remove the back section of the ECU bracket leaving other brackets in place for easy installation of the new backing panel. ECU brackets can be placed in scrap metal bins, ECU brochures can be placed in general waste or returned to your safari rep.

3, HOW TO INSTALL NEW GRAPHIC

The new graphic will arrive with double sided tape pre- adhered to the back of the card. Place panel carefully over remaining brackets. Ensure that the panel is straight with an even shadow line on all sides and tape to posts. Reinstall the front section of brackets and product displays.

4, SEND THROUGH COMPLETED PICS

All ARB Flagship stores are to send through completed set up pics through to their State Managers.
