ARB FRIDGE FREEZERS

Experience “fridge freedom” with ARB’s wide range of fridge freezers.

Engineered in Australia to handle extreme conditions, ARB fridge freezers offer uncompromising performance with a temperature range of -18°C to $+10^{\circ}\text{C}$ giving you refrigerated or frozen food and drinks no matter where your journey takes you.

Tested extensively for off road, outback and campsite usage, ARB fridge freezers will complement any boat, car, caravan or camper trailer. Fridges are available in 35L, 36L, 44L, 47L, 60L, 69L, 78L and 96L capacities and backed by a comprehensive three-year warranty.

It’s exciting shopping for your new fridge freezer and our team at ARB are experts in the field.

Some questions to consider to help you shop for the perfect fridge: How many days do you plan to go away for? How many people do you plan to look after? What type of electrical system do you have in your vehicle, what plugs are available and how do you plan to recharge this system?

These questions are a great starting point to discuss with the ARB team so they can get you the right set-up suited to your needs.

ZERO FRIDGE FREEZER RANGE

If you are looking for a new way to keep the cans cold and your meals frozen, look no further than ARB's new ZERO Fridge Freezer! Having both fridge and freezer space at the one time on selected models means you can travel for longer periods without restocking.

Available in 36L, 44L, 60L, 69L and 96L, the ZERO Fridge Freezer can be installed in your car, camper trailer or caravan with ease thanks to the quick-release lid (with side-opening* option on larger models) as well as front and rear DC inlets.

For all your cooling and travelling needs, make sure you have the ZERO Fridge Freezer along for the trip.

**Side-opening option on 60L and above only. 36L and 44L offer front-opening lid.*

FEATURES

Recessed carry handles and tie-down points

Side-opening lid
*60L, 69L and 96L only

Digital display for each zone
*Dual-zone models only

App connectivity via Bluetooth
*Smart phone or LINX control via Bluetooth connectivity

Quick-release detachable lid

Internal LED light

Dual independently controlled cooling zones
*Dual-zone models only

Versatile removable internal basket system

Highly efficient, variable speed compressor with boost rapid cooldown

Provision for tall items/bottles

USB 5V, 3,000mA outlet

Power supply dual front and rear DC (12/24V) and front AC (100-240V) with battery protection

Emergency override button in case of problems when out in the field

THE RANGE

36L

Single Zone

The 36L is the perfect fridge to take with you while at the beach or even for storing your grocery shopping.

44L

Single Zone

The 44L is an ideal fridge to take on picnics, fishing trips or quick weekend getaways.

60L

Single Zone

The 60L fridge is great for long weekends away or road trips.

69L

Dual Zone

The 69L is a perfect dual-zone fridge for off road trips or family touring.

96L

Dual Zone

With a huge capacity, the 96L dual-zone fridge is the ideal fridge to ensure you have sufficient space to keep you well stocked for a long period.

ARB ELEMENTS WEATHERPROOF FRIDGE FREEZER

Packed with the features all ARB fridge freezers are renowned for, and re-engineered to survive naked out in the elements, the ARB Elements Weatherproof Fridge Freezer also comes with unique features that not only protect and secure, but also make accessing your food and drinks even easier.

ELEMENTS APP CONTROL

The ARB Fridge App Connect Module allows you to monitor your ARB Elements Weatherproof Fridge Freezer from your smart phone. It is compatible with both Android, iOS and the ARB LINX system. The Connect Module transmits data over Bluetooth. You can check the temperature and change settings on your fridge freezer without having to get out of your seat.

STAINLESS STEEL EXTERIOR

With a body and hinges chiselled from stainless steel, anodised aluminium latches, UV-resistant trim and clever protected placement of electrical connections, the ARB Elements Weatherproof Fridge Freezer is capable of withstanding anything Mother Nature can throw at it.

GAS STRUT

Innovative strut holds the lid open in any position (from closed to upright), making it easier to grab the drinks on your next shout.

TOUCHPAD CONTROLS

Temperature control, backlit and dimmable, low voltage cut-out and security all at the touch of a button. The user-friendly touchpad allows full functionality with the lid open and securely prevents unwanted

adjustment or access with its unique user-selected locking code.

SECURITY

A unique magnetic lock, activated by the touchpad control panel, prevents unauthorised access or tampering with temperature settings. For additional security, a padlock recess is built into the exterior and an optional bolt-down mounting kit is available including tamperproof screws.

ELEMENTS FRIDGE FREEZER SPECIFICATIONS

Capacity	60L
External Dimensions	440mm (h) x 490mm (w) x 820mm (d)
Internal Dimensions	Fruit & Dairy Compartment: 133mm (h) x 355mm (w) x 156mm (d) Main Compartment: 332mm (h) x 355mm (w) x 477mm (d)
Weight	31.8kg (70.1lb)
Cooling Capacity	-18°C to +10°C (-4°F to +50°F)
Power	Built-in 12/24V DC / 100-240V AC power Integrated battery protection system
Current Draw	0.9Ah per hour average energy consumption tested at 3°C cabinet temperature, 30°C ambient temperature, test duration of 24 hours and supply voltage of 12V DC
Warranty	Three-year warranty from date of purchase

CLASSIC SERIES II FRIDGE FREEZER RANGE

The ARB Classic Series II fridge is a lightweight, efficient and reliable model that has proven itself time after time as a reliable 12-volt portable fridge freezer.

Keeping your food fresh and your drinks cold no matter where you are, the Classic Series II range of fridge freezers includes an advanced electronic control system now with complete mobile control via the ARB Fridge Freezer app. Additional new features include a dimmable backlit touchpad for easy night-time operation, removable lid and a 12-volt power input readout for simple voltage monitoring on the display.

TOUGH STEEL OUTER CASING

Powder-coated, robust zinc steel cabinet sides designed to withstand extreme off road conditions.

CONTROL PANEL

Backlit, voltage readout, dimmable LED temperature display/control panel – buttons illuminate upon touch for simple night-time viewing and operation.

REVERSIBLE BASKET WITH DIVIDER

Multiple storage options by separating fridge contents or alternatively allowing longer items to be positioned along the length of the cabinet.

DAIRY COMPARTMENT

Optimised internal capacity includes separate compartment for fruit and dairy products.

INTERNAL LED LIGHT

Rear-facing internal cabinet LED light with magnetic switch.

THE RANGE

35L CLASSIC SII FRIDGE FREEZER

Great for short trips or as a second fridge, the 35L suits many compact SUVs due to its low height and small footprint.

47L CLASSIC SII FRIDGE FREEZER

Suitable for many medium to large SUVs, wagons and utes, the class-leading 47L is your perfect travelling companion.

60L CLASSIC SII FRIDGE FREEZER

Perfect for family trips or off road touring, the 60L features a low profile to suit roller drawer systems, utes, larger 4WDs, boats and camper trailers.

78L CLASSIC SII FRIDGE FREEZER

With a huge capacity, the 78L provides sufficient space to keep a touring family well stocked with cold food and drinks during extended off road adventures.

Transmitting Module	Wireless monitoring & control via compatible Bluetooth-enabled devices
Warranty	Three-year warranty from date of purchase

FRIDGE ACCESSORIES

TIE-DOWNS

ARB's Tie-Down System is ideal for ensuring your fridge is secured at all times during on road and off road travel. ARB's tie-downs suit fitment onto ARB's fridge slides, making this accessory a smart and functional addition to your 4WD. Available for all ARB fridge freezers.

FRIDGE SLIDE

With a flat mounting base for secure fitment and multi-position latch, a fridge slide will ensure easy access to your car fridge at all times. Sealed roller bearings prevent dust ingress and incorporate a lock-in, lock-out mechanism to ensure the slide stays in position no matter what angle your vehicle is on.

Finished in a zinc-plated and black epoxy e-coat for superior corrosion resistance.

FULL EXTENSION FRIDGE SLIDE

The Full Extension Fridge Slide offers 100% extension capability, providing additional storage behind the 35L or 47L ARB fridge freezers. This additional space is ideal for storing equipment or a sealed battery.

The slide is designed to carry 120 kilograms of load (80 kilograms on the front tray and 40 kilograms on the rear tray). A drain hole cut-out allows owners to extend the slide away from the vehicle and easily drain the fridge freezer. Bearing slides feature four-way adjustable anti-vibration pads to prevent annoying rattles.

Note: Only available for 35L and 47L fridges.

ARB FRIDGE CONNECT APP

The ARB Fridge Connect app allows the user to monitor operating status and battery input voltage, set fridge display brightness and adjust the fridge temperature directly through your smart phone or LINX unit. Available for all ARB fridge freezers.

Note: Also available for the Classic SI (post-2014 models) and Elements Weatherproof Fridge Freezer. The new transmitter is sold separately and the app can be used only to display the temperature, input voltage and compressor status.

ARB Elements Weatherproof Fridge Freezers manufactured post-2020 now include two-way communication. A separate downloadable app is required for the Classic SII and Elements Weatherproof Fridge Freezer. Now includes two-way communication with the app and ARB Linx interface.

FRIDGE ACCESSORIES

TRANSIT BAGS

The ARB Transit Bag shields your fridge from dents and scratches while also providing additional insulation in extreme temperatures. Made of tough, durable material, the functional ARB Transit Bag features a handy side pocket for items such as the power cord or instruction booklet, cable retention slots to keep cables away from moving parts when on a fridge slide, as well as openings for the fridge's rubber feet, power cables and drain plug hole. Available for ARB Classic SII and ZERO Fridge Freezers.

CABLE GUIDE

With the ARB Cable Guide accessory, you'll be able to declutter, protect and complete your unique drawer set-up by providing a safe and enclosed track for your cables! Available in a one-metre length that can be shortened to accommodate your fridge size, drawer length and drawer set-up, this handy accessory can also be run under the floors or power outlets added to the side floors to give a more seamless finish.

12V & 24V WIRING ACCESSORIES

ARB stocks a wide range of 12- and 24-volt wiring accessories to suit these fridge freezers, allowing flexible placement options or simply to hard wire the fridge into the vehicle. These accessories will reduce possible voltage drop as they employ six-millimetre double-insulated auto cable. A selection of speciality threaded sockets and surface mount housings are also available and ARB can tailor a package to suit your individual requirements. Available for all ARB fridge freezers.

PORTABLE FRIDGE FREEZER POWER PACK

Take your ARB ZERO Fridge Freezer wherever your adventure takes you – even beyond your 4WD!

Keeping your portable fridge powered so your food and drinks remain cold without the need to be hooked up to your vehicle, the lightweight ARB Portable Fridge Freezer Power Pack features a 15Ah lithium battery for up to 18 hours* of runtime.

Operation is quick and easy – after conveniently attaching the pack to your fridge via high-power rubberised magnets, connect the power cable to the DC outlet, press the ON/OFF button and you're good to go!

*Test conducted on 44L ZERO Fridge Freezer. Ambient temperature 25°C, fridge set to 4°C. (Compatible with ZERO Fridge Freezers only)

ROLLER DRAWERS

Completely modular, the Outback Solutions Modular Drawer range can be individually tailored to your needs and vehicle. Fridge slides to suit the Outback Solutions Modular Drawer range vary in heights and lengths to suit the vehicle application. Compatible with a range of accessories including cargo barriers (wagons), tie-down points, cable runners and air system mounts and backed with a full three-year nationwide warranty.

Exclusive to ARB and suitable for many vehicles including wagons, utes (including extra cab) and trailers, this system can also be used in non-vehicle applications such as sheds and warehouses.

ROLLER FLOOR

For convenient access to your car fridge, the low-level roller floor sits only 140 millimetres above the floor of your vehicle. Incorporating a storage tray underneath for smaller items, there is no loss of space compared to traditional fridge slides.

MID-HEIGHT ROLLER FLOOR

The Mid-Height Roller Floor drawer provides convenient access to your fridge freezer, allowing you to transform the back of your 4WD, your way. These new drawers feature all of the strength of our full-height models.

ROLLER DRAWER WITH ROLLER FLOOR

The traditional style roll-out drawer with a rolling top gives you maximum storage space and allows a fridge freezer to be easily mounted on top, enabling it to be rolled in and out as required. These drawers are perfect for stacking and creating your complete storage system.
