Accessories

JL Wrangler | JT Gladiator

Jeep Accessories

For the adventurer, the family of travellers or the hard-working tradie – whoever you are – ARB will be there every step of your journey, offering you the highest calibre 4×4 accessories on the market.

3

With an unrelenting commitment to innovation and engineering excellence, an extensive network of retail outlets and workshops around the country and exceptional aftersales support, you can be assured you're getting quality products, reliable service and sound advice.

Protection Equipment

OUR PROTECTION
GEAR HAS BEEN
DESIGNED FOR
MAXIMUM STRENGTH,
STYLE AND
PRACTICALITY.

Vehicle protection is one of the main priorities for owners of 4WDs and commercial vehicles. Bull bars, rear bars and side rails and steps will help prevent expensive panel damage, especially when heading off road, as well as providing a solid base on which to mount a range of accessories like winches, driving lights and antennas. Like all of our products, our protection gear has been designed for maximum strength, style and practicality.

5

Deluxe Bull Bar

Inspired by the classic ARB Wrangler JK Deluxe bumper, ARB has developed a full-width winch-compatible Deluxe Bull Bar to suit the JL Wrangler and JT Gladiator.

Manufactured from steel for ultimate strength and powder-coated for durability, the Deluxe bull bar is designed to complement the vehicle's style and safety systems while offering a solid platform to mount essential 4WD accessories in a seamless and integrated package.

Available with and without sensors, the Deluxe bull bar is compatible with a selection of Warn, Smittybilt and Bushranger low-mount winches and a cover panel finishes off the bar when a winch is not fitted. To complement the bar, optional fog light kits are also available.

- Deluxe bull bar with sensors is available for Jeep Wrangler JL Overland and all JT Gladiator models
- Deluxe bull bar without sensors is available for Jeep Wrangler JL Rubicon and Sport models

7

Deluxe Bull Bar without Centre Tube

Featuring many of the protection and design elements of the Deluxe bull bar, the Deluxe bull bar without centre tube offers modern vehicle owners the choice of removing the centre tube for a uniquely different look to the more traditional bull bar, while still maintaining a high level of impact protection.

The Deluxe bull bar without centre tube is designed to complement the vehicle's style and safety systems while offering a solid platform to mount essential 4WD accessories in a seamless and integrated package.

The Deluxe bull bar without centre tube is compatible with a selection of Warn, Smittybilt and Bushranger low-mount winches and a cover panel finishes off the bar when a winch is not fitted.

8

- Deluxe bull bar without sensors is available for Jeep Wrangler JL Rubicon and Sport models
- Deluxe bull bar with sensors is available for Jeep Wrangler JL Overland and all JT Gladiator models

SmartBar StealthBar

Specifically designed for the Jeep Wrangler JL and JT Gladiator, SmartBar's StealthBar has been designed to blend seamlessly to the contours of the vehicle, maintaining the intended aesthetics of Jeep's unique design and factory accessories while providing unparalleled safety and off roading capability.

→ Available for all JL Wrangler and JT Gladiator models

ARB Rear Bars

Designed with functionality and strength in mind, the ARB rear bar for the JL Wrangler and JT Gladiator offers rear protection whilst providing a greater departure angle over the OE rear bar. Available for the JL Sport, Overland and Rubicon models, the ARB rear bar features twin chassis-mounted rated recovery points, two ARB Jack or Hi-Lift jack points and provision for the fitment of an air chuck.

→ Available for all JL Wrangler models

Note: To complement the ARB JL protection equipment range, the rear bar is finished in Integrit textured black powder-coat, which is not suitable for colour-coding.

ARB has also designed and developed an ARB rear bar for the Jeep JT Gladiator that can be fitted in conjunction with either the OE or Hayman Reese Towbar. This Rear Bar mounts to the vehicle chassis and includes two ARB Jack or Hi-Lift jack points and incorporates twin chassis-mounted rated recovery points. For added protection to the lower sections of the vehicle tub, an optional Lower Protection Rail Kit has also been developed.

→ Available for all JT Gladiator models

ARB Rock Sliders

Combining functionality, strength, protection and a visually unique design, ARB has designed and developed an ARB style of rock slider not previously available for the Jeep platform. ARB rock sliders are available for the JL two-door and four-door models and all JT Gladiator models. These rock sliders are made up of both the slider assembly and a lower body mount to spread the load and protect the vulnerable lower sill area of the JL and JT when used off road. To complement the ARB Jeep protection equipment range, the rock sliders are finished in Integrit textured black powder coat.

→ Rock Sliders are available for JL Wrangler two-door and four-door models and for all JT Gladiator models

Note: due to slight differences in flare design between the Sport model and the Rubicon, there is reduced clearance between the JL Sport flare and the rock slider.

Roof Racks and Roof Bars

From roof racks and cross bars to sport and leisure carriers, when it comes to finding the right load carrying solution to suit your needs and lifestyle, ARB has all the best brands under one roof! Whether it's increasing your luggage storage space with a roof box or securing your bike as you take off on your next adventure, ARB offers a huge range of options that'll have you covered.

BASE Rack

Introducing the next phase in roof rack evolution, the ARB BASE Rack. Ultra-sleek, boasting a super low mounting profile and lightweight design, the BASE Rack provides unmatched simplicity, flexibility and personalisation in your roof rack set-up.

Setting a new benchmark in strength and integration, the BASE Rack incorporates a revolutionary dovetail mounting system that makes attaching and removing loads and accessories easier, faster and more secure.

Additionally, ARB also stocks Thule and Rhino roof bars and accessories to suit most popular 4WDs, 2WDs and SUVs.

→ Available for four-door hardtop JL Wrangler

Old Man Emu

Suspension systems, especially when referring to 4WDs, are extremely complex. Determining the right solution for each 4WD requires special attention to many factors, with weight being the most critical. Old Man Emu 4×4 suspension by ARB approaches this in a unique way.

Instead of offering a compilation of parts that have been chosen primarily to increase the vehicle's ride height, OME 4×4 suspension provides a range of tuned, matched and integrated systems, each offering optimum levels of comfort, load carrying capability and control characteristics.

The complete Old Man Emu suspension range incorporates more than just 4×4 shock absorbers and springs. At ARB, we take integration to the highest level with our own selection of bushes, U-bolts, centre bolts, spring liners, trim packers and suspension fitting kits.

→ Available for JL Wrangler and JT Gladiator

Nitrocharger Sport

Where the purpose of a spring is to carry the load of a vehicle and its cargo, a shock absorber works to control the spring by absorbing excess energy and in doing so has a profound impact on your vehicle's ride and handling. During the development of Old Man Emu's Nitrocharger Sport shock absorbers, particular emphasis was placed on how well they are matched to the specific springs they'll be controlling; with Ride Control Engineers tailoring shock absorber valving to work with the different springs in the range, often resulting in multiple shock absorber options for each vehicle. Built in Australia and trusted by 4WDers throughout the world, OME Nitrocharger

Sport shock absorbers set the standard in fine-tuning and ride comfort in any terrain and simply outperform the competition.

Springs

Old Man Emu designs a range of coil and leaf springs, enabling the installer to match the most appropriate springs to the intended application. While ride height increases are attained, an emphasis is placed on ride control improvements. Further fine-tuning is achieved when the springs are matched to a corresponding set of Old Man Emu shock absorbers, delivering a fully integrated system designed specifically to suit your vehicle.

Other Accessories

Air Locker

Designed and manufactured in Australia, ARB Air Lockers provide increased traction at the flick of a switch, whether it's rock, clay, sand, snow or mud. With a state-of-the-art, two-piece design and an uncompromising approach to manufacturing, Air Lockers are distributed in over 100 countries worldwide and are the most trusted locking differential on the market. Air Lockers have a five-year, unlimited Kilometre warranty.

Fridge Freezers

Developed specifically for off road use, ARB's range of fridge freezers offer uncompromising performance, making them the perfect companion for off road travel, giving you the convenience of cold food and drinks, with rapid cooling and low power consumption. The range comes in a variety of convenient sizes, as well as offering dual- and single-zone options:

ZERO Fridge Freezers:

36L Single Zone, 44L Single Zone, 60L Single Zone, 69L Dual Zone and 96L Dual Zone

Classic Fridge Freezers:

35L, 47L, 60L, 78L

Elements Weatherproof

Fridge Freezer: 60L

Intensity LED Driving Lights

Engineered in Australia, ARB's Intensity LED driving lights have been designed and manufactured to specifically meet the demand of 4WDers around the world.

Submersible to three metres and vibration tested to military specifications, Intensity LED driving lights are available in traditional round sizes (AR21, AR32 and Solis) for standard bull bar mounting or as a light bar (AR40) for a unique integrated low-profile mount, suitable for both bull bars and roof racks. Spot, flood and combination beam patterns are available (model dependent).

Recovery Equipment

When travelling off road, reliable and durable recovery equipment is paramount. ARB offers a large range of recovery gear that will help get your vehicle out of any sticky situation. The range includes snatch straps, recovery kits, tree trunk protectors and cable dampers. ARB also supplies a range of electric winches and Hi-Lift jacks.

Reversing Camera

ARB's range of reversing cameras and monitoring systems offers exceptional reversing visibility and helps to extend the driver's vision to the rear, side, roof or front of the vehicle. Designed with flexibility and superior performance in mind, there are a multitude of options to suit every individual, providing all round safety.

Bushranger and IPF Lights

To cater for the varying lighting requirements of 4WDers all over the world, ARB distributes a range of Bushranger and IPF driving and fog lights, in addition to a range of replacement headlamp bulbs.

Other Accessories

Auxiliary Battery Kit

Perfect for powering additional accessories without running the risk of flattening the main battery and to give you peace of mind in the event of a main battery failure, ARB has a range of dual battery kits to choose from.

Air Compressors

ARB air compressors are available in both portable and vehicle-mounted kits and offer many advantages when exploring the great outdoors, such as inflating tyres and camping accessories, running air tools, activating Air Lockers, even reseating a tyre onto a wheel. All ARB air compressors come with a comprehensive three-year warranty with spare parts available for increased longevity.

Outback Solutions Drawers

Modular in design for user customisation, Outback Solutions drawers can maximise the versatility of your vehicle's cargo space by being configured with fridge roller drawers, roller floors or stackable drawers. Manufactured from galvanised stainless steel with sealed roller bearings and commercial grade carpet for durability, Outback Solutions drawers are backed by a three-year warranty.

Safari Snorkels

A Safari snorkel helps protect your vehicle's engine from dust, snow and water ingress, ensuring clean, dry air is always available, no matter what the circumstance. Manufactured in Australia from polyethylene, the Safari snorkel is UV-stable and can handle the toughest of conditions.

Camping Accessories

ARB has a range of camping accessories to help you on your next weekend escape or off road adventure. Made from rugged and hardwearing materials and built for the great outdoors, the range was designed to cope with the harshest of conditions. From swags and rooftop tents to camping chairs and general accessories, ARB has all your camping needs covered.

LINX

LINX is a unique modern controller that declutters the dashboard and centralises the command of vehicle accessories by replacing classic switches, gauges and monitors with one sleek and smart driver interface. Built on an expandable platform, LINX will continue to evolve your on and off road driving experience both now and into the future.
