WHERE WILL THE EARTH CAMPER  
TAKE YOU?

**TOP OF THE CLASS**

Seven years of design, engineering and manufacturing went into bringing this camper trailer to market. A genuinely built-for-purpose off road trailer that exceeds the limitations of mainstream caravans.

The Earth Camper embodies everything that ARB represents, providing customers the ultimate travel companion for their off road experience.

# FEATURES

User-centric standard features to confidently take you on unforgettable adventures

Pre-production model shown.

## CHASSIS

Pre-production model shown.

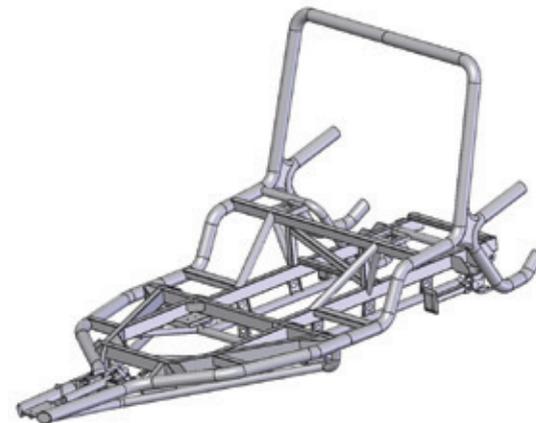

Pre-production model shown.

The tubular steel frame provides an exoskeletal design to protect the sides of the camper while tackling tough tracks.

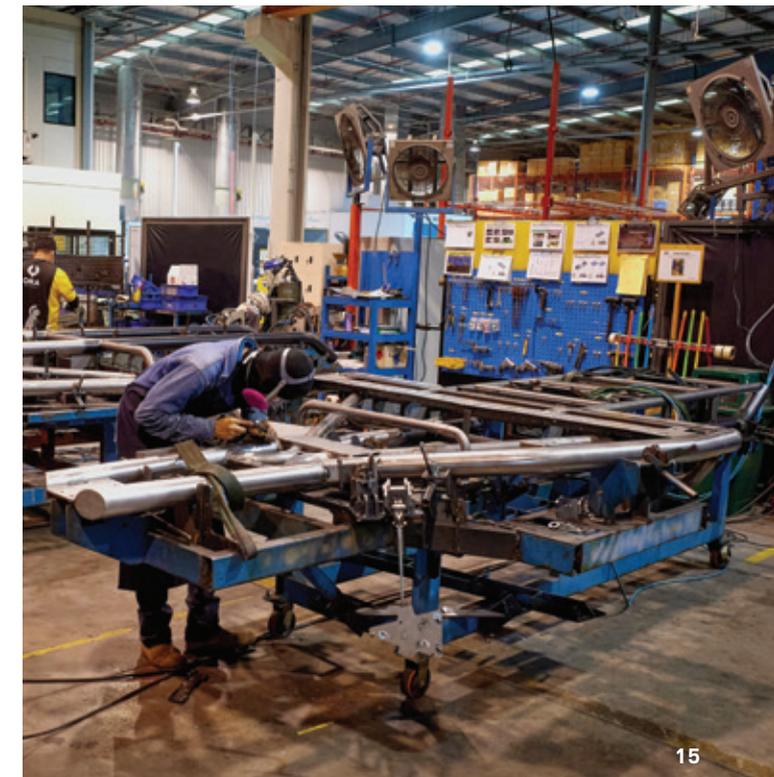

### FEATURES

- 90-millimetre cylindrical steel frame
- One-piece welded exoskeletal frame
- Cruisemaster D035 hitch and handbrake
- 3,500-kilogram rated safety chain and G80 connector
- ARK XO extreme offroad jockey wheel (500-kilogram rated)
- Front stone shield
- Underslung mud flap and stone shield
- Two ARK drop-down stabiliser legs

### DID YOU KNOW?

After almost 50 years of bull bar manufacturing, steel tube fabrication is ARB's heartland. Whilst significantly more challenging to manufacture, drawing on off road racing heritage, a round tube chassis is inherently stronger than traditional rectangular chassis as there are no weak points from corners, offering consistent strength along interior and exterior surfaces as well as superior resistance to flexing under load. Designed to take you to those hard-to-reach places time and time again.

Pre-production model shown.

## SUSPENSION & MECHANICAL

Featuring ARB's Earth Camper - specific, three-part, engineered suspension package.

### 1) 900MM TRAILING ARM

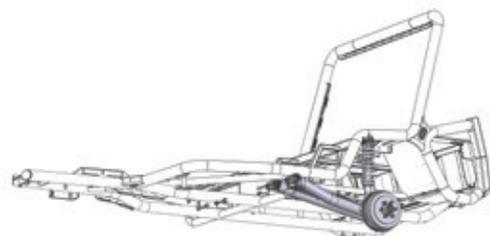

One of the longest on the market, reducing strain on suspension components and extracting greater wheel travel to provide a smoother ride and better traction.

### 2) VERTICALLY ORIENTATED SHOCK ABSORBER

Allowing movement at the axle to reflect directly into the shock to achieve 100% efficiency. Normally, space constraints prohibit shocks from being mounted vertically; however on the Earth Camper, the chassis and suspension on the Earth Camper were designed first, with the rest built around it – making it truly built for purpose.

### 3) CUSTOM-TUNED COIL OVER STRUT, NITROCHARGER SHOCK

Fine-tuned by Old Man Emu Engineers to suit the EC's unique weight and ride handling characteristics, not just an off-the-shelf bolt in.

### FEATURES

- OME Nitrocharger shocks
- 900-millimetre extra-long trailing arm
- 32-inch Maxxis Razr All Terrain tyres
- 16-inch ARB Earth Camper edition Alloy wheels
- 12-inch electric brakes
- 6 x 139.7 Landcruiser/HiLux wheel hub
- Timken bearings
- Wheel brace, scissor jack and spare centre cap included

Suspension testing jig

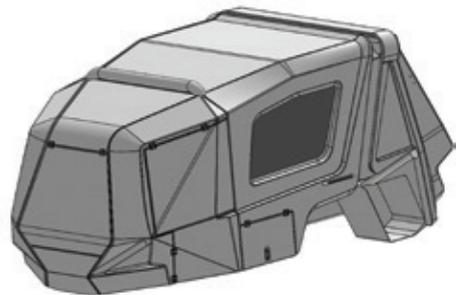

## BODY & SHELTER

The body of the Earth Camper is built to provide protection from the elements with well-insulated walls, roof and bulkhead. Hard shell comfort without relinquishing practicality when travelling off road.

The built-in freestanding awning has 180-degree coverage over the kitchen area. The specially angled poles are telescopic to allow as much coverage as possible, while still packing up into a neat and out-of-the-way compartment that sits flush within the overall camper.

### FEATURES

- 100% wood-free design
- Well insulated
- Opening side window with flyscreen
- Dust suppression system (with serviceable filters)
- Lockable compression latches
- Enclosed built-in compartment
- Awning to rear canvas zip on extension included
- Awning walls/windbreaks available
- Rear canvas living/dining area
- Awning has 180-degree coverage
- 280gsm ripstop canvas
- Awning poles for windy conditions

Foam and timber prototype

Pre-production model shown.

Pre-production model shown.

## BASE RACK

Setting a new benchmark in strength and integration, the BASE Rack incorporates a revolutionary dovetail mounting system that makes attaching and removing loads and accessories easier, faster and more secure.

### FEATURES

- 1,255 millimetres x 1,455 millimetres
- 125-kilogram rated
- Side-mounting dovetail system
- Huge range of accessories to extend your storage for larger items such as kayaks, surfboards, additional solar or swags for extra guests

## ELECTRICAL

Pre-production model shown.

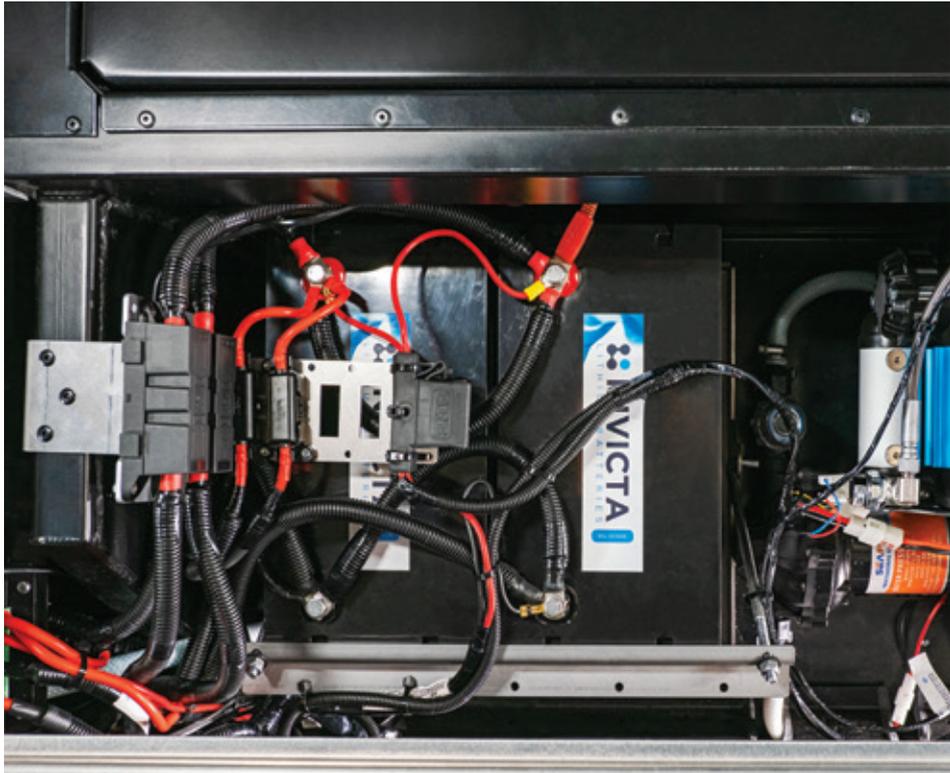

### Built to stop anywhere.

Keep the trip going smoothly and the lights on plus so much more with the REDARC Manager30 battery management system to monitor the battery and drawings.

#### FEATURES

- 120-watt roof-mounted solar panel
- 100AH lithium battery
- REDARC Manager 30 battery management system
- Dual-temperature and dimmable gullwing door lights
- External solar input Anderson plug
- 240-volt mains power provision
- Dual-input GPO outlets
- Dual GPO outlet in front locker
- Externally mounted 240-volt/15-amp inlet
- Provision for REDARC inverters
- Seven-pin flat trailer
- Anderson plug vehicle connection
- Further tech accessories available as accessories
  - Second battery upgrade
  - REDARC RedVision upgrade
  - REDARC Inverter upgrade 350-2,000 watts
  - ARB Air Compressor Kit
  - Additional REDARC Solar Blanket

## KITCHEN & WATER

The heart of any home (even those on wheels) is the kitchen, and this camper is no different.

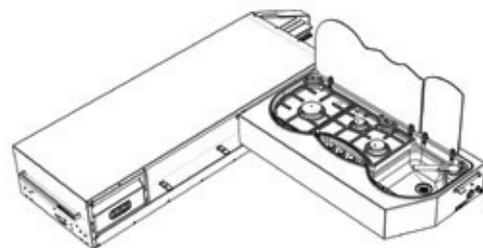

Coming standard with a huge dual-zone ZERO Fridge Freezer, a three-burner Thetford stove and a sink plus a stainless steel benchtop to prepare delicious meals on.

A few simple movements to set up the kitchen, connect your gas bottle and the water hose and you are ready to cook up a storm.

Above the fridge, there is a handy drawer you can store pantry items or kitchen crockery and cutlery.

### FEATURES

- Three-burner Thetford cooktop
- 1,200-millimetre benchtop
- Integrated sink
- 96L ZERO Fridge Freezer
- One-kilogram ABE dry fire extinguisher
- Spacious cutlery drawer
- Sliding, lockable pantry drawer
- Full extension lock-out fridge slide

Pre-production model shown.

### WATER FEATURES

- Two 70-litre water tanks centrally mounted over axle
- Digital water level indicator
- 3.0-11.3LPM onboard water pump
- Lockable water fill point
- External tap outlet
- Two four-kilogram gas bottles
- Neoprene gas bottle covers
- Lockable gas bottle holder

## INTERIOR

### Ultimate comfort where it's most important.

The queen-size bed has a thick foam mattress, and along each side of the bed, you have two-bed-level storage pockets and a drink bottle holder. Plus the Earth Camper has another two overhead storage pockets with mesh protectors. Each corner has a Sirocco fan and a reading light, and the rear wall features a large divided storage pocket for books, newspapers and laptops.

#### FEATURES

- Queen-sized bed with 150-millimetre high-density foam mattress
- Pleated side black-out curtains
- Wind-out opening side window and removable flyscreen
- Two Sirocco 12-volt fans
- Flip-out internal dining table connected to trundle drawer
- Two drawer storage tray organisers
- Durable EVA foam flooring on key step zones
- Ambient roof lighting, two bedside reading lights and living room area light
- Two bedside USB-C charging points
- Six USB sockets
- Two 240-volt GPOs
- Internal REDARC control panel
- Smooth finish roof is an excellent attachment point for suction cap tablet mounts for movies and entertainment

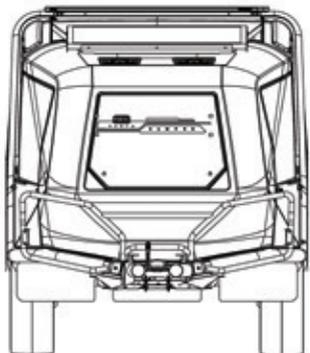

Pre-production model shown.

## STORAGE

Packing no longer needs to feel stressful as the Earth Camper has plenty of storage options, so everything you need has a place.

A large trundle drawer inside and multiple external storage cupboards with tailor-made gear bags available for extended remote area travel.

On top of the storage capability, the drawer also has a folding table included. The table can be used with the drawer opened or closed as a dining table, for card games or to read the latest *4x4 Culture*.

Pre-production model shown.

Pre-production model shown.

### FEATURES

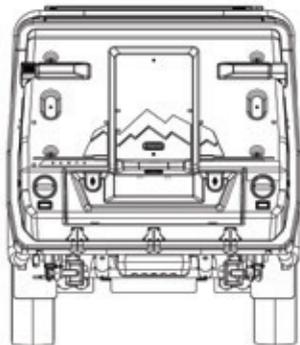

- 1,255-millimetre by 1,455-millimetre BASE Rack with 125-kilogram load rating
- Rear wet storage locker
- Provision for two 20-litre jerry cans (lockable)
- Drawbar accessory rails (for soon to be accessory line - drawbar storage options inc cassette toilet)
- Spacious front boot and essentials kit bag
- Spare tyre storage compartment
- Large underbed trundle draw with anti-rollback
- Under draw custom storage bag
- Four large overhead pockets
- 10-pocket bedhead cargo organiser
- Two side wall cargo organisers on each side
- Two bedside storage pockets on each side

## REAR DOOR

The electronic, dual-actuated rear door on the Earth Camper allows for quick and easy set-up or pack-down at the press of a button.

### FEATURES

- Adds an additional seal to keep the cab dust free
- Provides an off-the-ground hard floor for annexe area
- Bed ready in less than one minute
- Internal access door provides hard shell security via the internally lockable handle
- All canvas is stored between outer and inner doors, eliminating the potential for wet canvas packing up on the bed
- Both manual-release catches and failsafe overrides built in

Pre-production model shown.

# ACCESSORY LIST

Although the Earth Camper offers all the essentials and more as standard, a continually developing range of accessories is available to cater to additional luxuries, differing climates and user preferences.

Pre-production model shown.

## CLIMATE

### DIESEL HEATER

The Webasto diesel heater, the Airtop 2000 is a must-have upgrade for cooler climates and cold desert nights – the perfect companion for guaranteed comfort all year round.

#### FEATURES

- Mounted on custom ARB bracketry
- 20-litre HD Proquip jerry can as fuel cell
- Premium Webasto digital controller

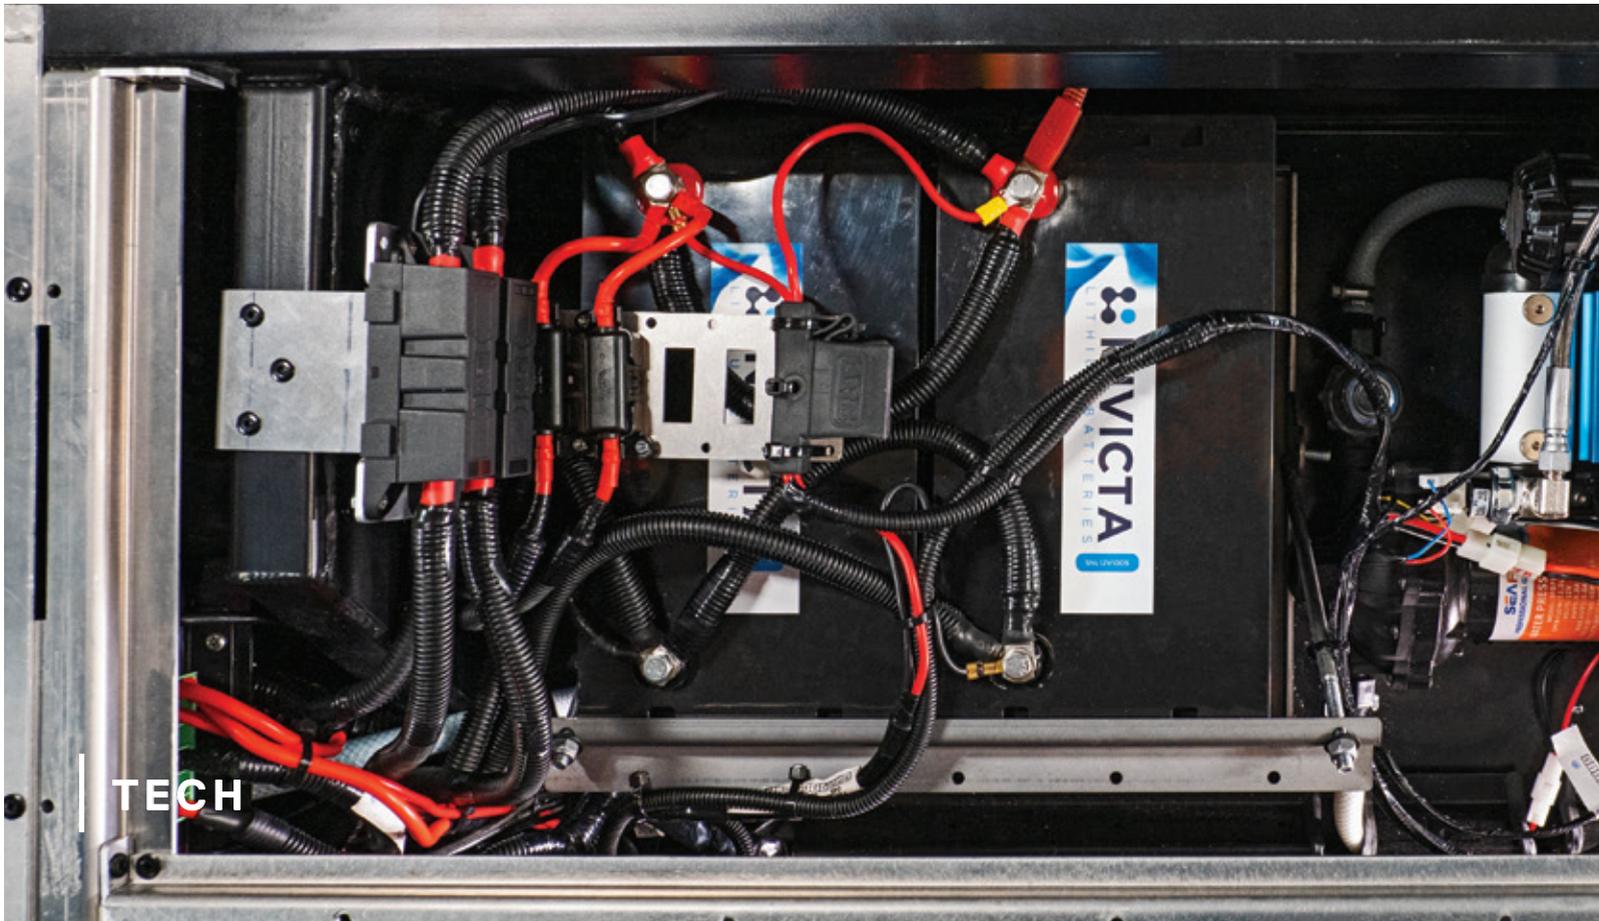

Pre-production model shown.

### AWNING WALLS

Add additional shelter with a selection of awning walls.

#### FEATURES

- Two sizes to choose from: narrow or wide
- Can be used as a vertical wall or lean-to/windbreak
- 280gsm canvas

TECH

## SECOND BATTERY UPGRADE

For those who want to stay off grid for some time, upgrade your camper to house two lithium batteries.

### FEATURES

- Double the power
- Perfect for longer stays without moving
- Required to run a larger 2,000-watt inverter

## REDARC UPGRADES

### RedVision TVMS

RedVision provides an unprecedented level of control and automation to your Earth Camper.

#### FEATURES

- Control board replaces standard fit fuse block, water level indicator and battery isolator to centrally terminate all essential systems in one place
- User-friendly, premium control screen
- Ability to control camper via smartphone
- Simplified visibility in one spot

### Inverter

With the in-built provisions, the Earth Camper can accommodate a 350-2,000-watt REDARC Inverter for the convenience to run your regular appliances.

#### FEATURES

- Power your 240-volt accessories while off grid
- Housed in otherwise unused space above the spare tyre
- Capable of holding the majority of the REDARC range 350-2,000 watts

## AMENITIES

### HOT WATER AND SHOWER

The Joolca HOTTAP V2 Hot Water Kit provides hot water for home-level comfort. Hot water in the kitchen to cook, or wash up. Hot showers after a long day around camp.

#### FEATURES

- 15-hour run time on a single gas tank
- Temperature display and diagnostics
- Handheld, magnet mount or hang from a hook shower head

Pre-production model shown.

Pre-production model shown.

### ENSUITE ROOM

Set up to shower, use a cassette toilet or simply an outdoor changing room, the Ensuite Room gives you privacy for the moments you need it most.

#### FEATURES

- Thoughtfully placed hooks for shower head, toilet roll or toiletry bag
- Integrated clear panel to allow light through from the Earth Camper roof cavity
- Two-stage doors and flyscreens on both sides

## CANVAS STORAGE BAGS

Pre-production model shown.

### FRONT STORAGE BAG

Great for:

- Pots and pans
- 240-volt leads
- Additional food storage

Can be double-stacked in the spare tyre compartment.

### POLE STORAGE BAG

Great for:

- Poles for awning, ensuite room and awning windbreaks on one side of the upper pantry shelf

### CANVAS STORAGE BAG

Great for:

- Awning roof extension
- Ensuite room
- Awning windbreaks

Designed for storing in front boot. Sewn-in vent to promote air flow

### PANTRY STORAGE BAG - FULL

Great for:

- Taller food packaging
- Long-life milk

### PANTRY STORAGE BAG - HALF

Great for:

- ARB Kitchen Organiser
- Shorter pantry items
- Cutlery and utensils

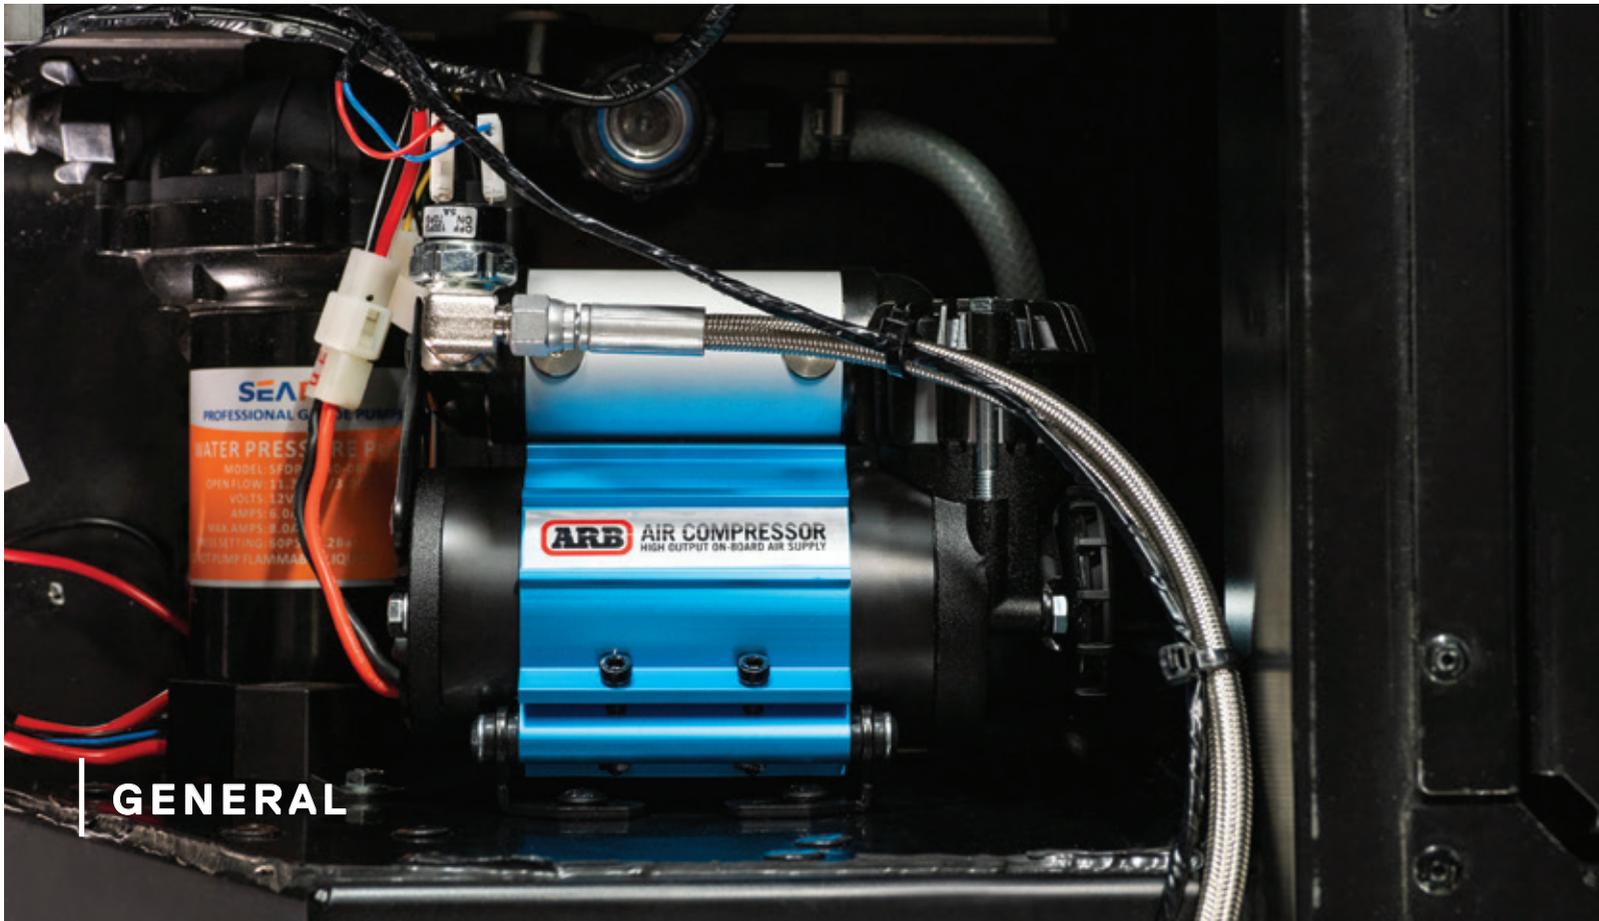

### HANGING ORGANISER

Great for:

- Extra clothing items
- Shoes

Collapses and zips up when not in use.

GENERAL

### AIR COMPRESSOR KIT

Get back on the tarmac easier with an on-board compressor and specific Earth Camper fitting kit.

#### AIR COMPRESSOR KIT FEATURES

- Specified braided hose cut to length
- Remote air outlet chuck fitted conveniently

#### AIR COMPRESSOR FEATURES

- Single or twin compressor
- Class-leading flow rate
- Fast tyre inflation
- Internal thermal protection

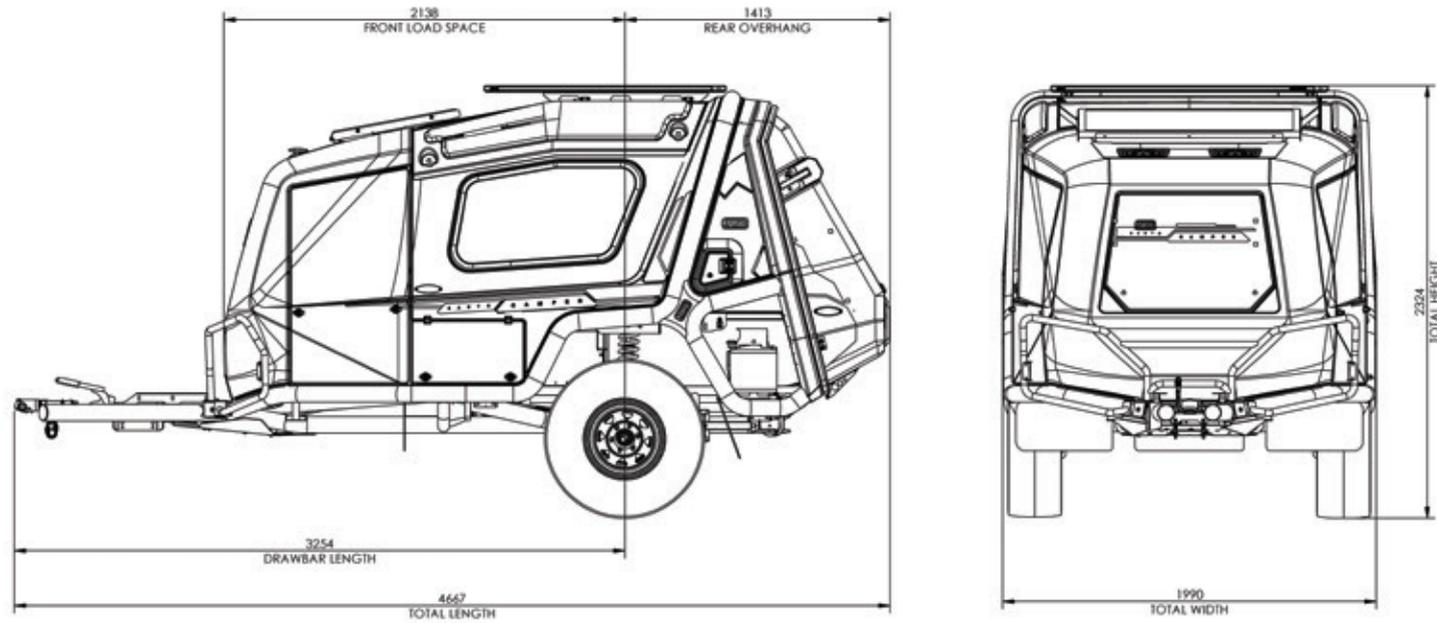

### STORAGE COVER

For those moments you're required at home rather than on the road, protect your camper with the tailor-made storage cover.

#### FEATURES

- Stitched to follow camper contours
- Solar panel window to allow charging while covered
- Zip access to the electrical compartment
- Four tie-down cam buckles to ensure it stays secure
- 300gsm 100% polyester roof with PU coating
- 225gsm soft tricot brush material body
