MORE

The ARB Intrepid Slimline Aluminium Rooftop Tent is engineered to maximise liveability in a compact, travel-ready design. With an industry-leading 36% more internal space than traditional clamshell tents, Intrepid makes it easier to get changed, sleep either end and relax comfortably in any weather.

Despite its generous interior, Intrepid packs down to an ultra-slim 18cm profile, remaining lightweight and aerodynamic in transit while opening into a spacious living area at camp.

Its modular design and comprehensive accessory range allow campers to tailor their setup to suit different travel styles, climates and vehicle configurations.

Available in 3 sleeping capacities, 2.0 (1285mm wide), 2.5 (1400mm wide) and 3.0 (1600mm wide), and built to ARB's uncompromising standards, Intrepid delivers the ideal balance of space, adaptability and practicality for modern touring.
