LIGHTEN UP YOUR RIDE

Deck out your 70 with the quality protection you need at a fraction of the weight. This tourer is kitted out with the lighter alternative when it comes to frontal protection, giving you more allowance to carry what you need most.

Perfect for some extended time on the road, get further with the lightweight option from ARB in the SpartanBar or StealthBar. Explore your heart's content with a little help from a few ARB essentials like the BASE Rack, Classic Series II Fridge Freezer and a Frontier Long Range Tank. Back this up with OME MT64 suspension ensuring the trips are smooth, and some Recovery Points and a Bushranger REVO MKII 12-W Winch are guaranteed to get you back safely. Explore with ease in your LandCruiser.

PROTECTION

Protect the front end of your vehicle with a winch-compatible ARB bull bar designed to give you the protection and confidence to explore any terrain.

Summit MKII Bull Bar

The ARB Summit MKII Bull Bar has been designed with the most innovative technology yet, with complete integration to the suite of advanced driver assist safety technology available on modern vehicles. The design has been significantly updated to include a plug-and-play sequential indicator, clearance light, daytime running light and fog light within one complete unit for an integrated approach. Adding to the sleek design, the Summit MKII Bull Bar has robot welds on the front face for a premium finish.

ARB StealthBar

The ARB StealthBar is engineered specifically as a durable, lightweight protection system. Designed and manufactured in Australia, its core function is to absorb impact in the event of a collision, protecting occupants and vital components while remaining compatible with vehicle safety systems such as air bags, parking sensors and radar. Constructed from tough, impact-resistant polymer, the StealthBar blends seamlessly with the vehicle's styling and provides a reliable platform for mounting a winch, driving lights, antennas and other accessories.

ARB SpartanBar

The ARB SpartanBar puts safety first with an advanced front protection system that absorbs impact to reduce the risk of occupant injury and help keep vehicles on the road. Made from durable materials, it absorbs impact to dissipate energy and can return to shape, maintaining protection without compromising vehicle integrity. Its hollow construction, lightweight design also makes it ideal for GVM-conscious owners seeking maximum safety with minimal added weight.

RECOVERY

When you need a helping hand out on the tracks, ARB has you covered with a range of recovery equipment and accessories.

Recovery Points

The ARB Recovery Point features a chamfered edge specifically designed to suit both soft and steel shackles. Each ARB Recovery Point is rated at 8,000 kilograms up to the maximum turn angle of the front wheels. Both left-hand and right-hand Recovery Points are a forged construction and have been precision robot welded to allow for different set-ups of recovery equipment to suit each individual situation. As each point is rated at 8,000 kilograms, the use of bridle straps is not required.

WARN Winches

WARN is known for being rugged, durable and reliable, three key elements when it comes to winching. The WARN VR EVO Winch offers fast line speeds with lower amp draw and is made with a bold tactical look. This winch features a synthetic rope and can pull up to 12,000 pounds.

Bushranger COVERT 10,000lb Winch

The Bushranger COVERT Winch features a premium, discreet design that seamlessly integrates with modern 4x4 vehicles for a sleek, low-profile look. Proudly engineered and proven in Australia, it's built to perform in the harshest conditions using the highest quality components and rigorous testing methods to deliver long-lasting reliability and performance.

SIDE PROTECTION

Designed to protect your vehicle's doors and side sills, side protection gives you the confidence to venture off road, while rear protection ensures durability on steep, rocky terrain.

Summit Side Rails & Steps

ARB Summit Side Rails and Steps act as a shield for your vehicle's vulnerable side panels, protecting against rocks and road debris frequently encountered during remote area travel. Made from 60.3-millimetre tubular steel and featuring an anodised aluminium tread plate, the protection is available as rail and step or step on its own.

Side Steps

ARB Side Steps allow for easier access in and out of your vehicle, all while providing further protection against obstacles and debris when travelling.

BACK OF UTE

Whether it's for camping, keeping equipment and tools dry and secure or for extra storage, ARB has the perfect solution for your needs.

MITS Alloy Canopy

The heavy-duty aluminium MITS Alloy Canopies for utes are built in Australia. Tailored to suit your lifestyle and needs, MITS Alloy Canopies are one of the most versatile options on the market, providing a range of possibilities to mount, carry and organise your gear.

MITS Alloy Tray

The heavy-duty aluminium MITS Alloy Trays are built in Australia. Every MITS Alloy Tray comes loaded with value-packed standard inclusions such as black textured powder-coat finish, under tray draws and toolbox. Manufactured using industry-leading design and innovation, they're available for a vast range of vehicles on the market.

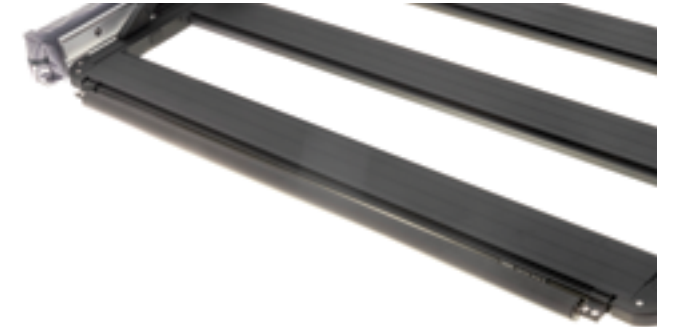

BASE RACK

The BASE Rack has endless configuration options facilitated by a unique dovetail mounting system that allows for easy attachment and removal. Supported by extruded aluminium, it's suitable for both recreational and commercial use.

BASE Rack

Ultra sleek, boasting a super low mounting profile and lightweight design, the BASE Rack provides unmatched simplicity, flexibility and personalisation with a range of accessories for full customisation. The BASE Rack is available for fitment on the cab or the canopy of the vehicle.

BASE Rack Roller

Loading pieces of timber and other heavy items onto your BASE Rack will be much easier with this useful accessory. Available in two sizes to suit the standard and narrow racks and can be attached to any section of dovetail around the outer perimeter of the rack.

BASE Rack Sizes / Dimensions

- **1,255mm x 1,285mm:** 14.3kg approximately
Best suited to dual-cab LC79 and LC76 wagon, option for LC78 troop carrier
- **1,545mm x 1,285mm:** 16.6kg approximately
Best suited to dual-cab LC79 and LC76 wagon, option for LC78 troop carrier
- **1,545mm x 1,445mm:** 18.5kg approximately
Best suited to dual-cab LC79 and LC76 wagon, option for LC78 troop carrier
- **1,835mm x 1,285mm:** 19.9kg approximately
Best suited to LC76 wagon and LC78 troop carrier
- **1,835mm x 1,445mm:** 21.5kg approximately
Best suited to LC76 wagon and LC78 troop carrier
- **2,125mm x 1,285mm:** 22.8kg approximately
Best suited to LC76 wagon and LC78 troop carrier
- **2,125mm x 1,445mm:** 24.5kg approximately
Best suited to LC76 wagon and LC78 troop carrier

Blade Mount

Providing three points of contact along each gutter, ensuring clearance from door seals, these Blade Mounts provide a sturdy and secure connection for your BASE Rack to the vehicle roof.

SUSPENSION

Get greater ride comfort and handling across all terrains with an Old Man Emu suspension system from ARB.

OME BP-51 Suspension

Whether it's extended trips, 4WDing or tackling terrain, Old Man Emu BP-51 suspension by ARB provide unrivalled performance, setting the benchmark for all driving conditions thanks to their fully adjustable internal bypass system. The result is the holy grail of suspension performance: the ultimate comfort and control when you need it.

OME MT64 Suspension

The MT64 is a set-and-forget suspension that takes comfort and load carrying to the next level. This highly engineered shock absorber and strut range provides all-round comfort when heavily loaded or tackling the harshest roads on your next adventure.

OME Nitrocharger Plus Suspension

Old Man Emu's world-renowned Nitrocharger suspension has stood the test of time, constantly standing up to the conditions and demands of vehicle owners. A Nitrocharger suspension system is an affordable upgrade that provides a significant improvement in comfort over the vehicle's standard suspension both on and off road.

Steering Damper

The OME Steering Damper works to combat the aggressive rotation of the steering wheel over rough roads without affecting steering wheel return. This will give you a smoother ride by reducing the side-to-side motion, which will also improve longevity of the steering system.

Parabolic Leaf Springs & Air Bag Kit

The Parabolic Leaf Springs & Air Bag Kit gives you the flexibility to cater for varying loads of up to 600 kilograms. So whether it's tools during the week or a rooftop tent on the weekend, ARB's Parabolic Leaf Springs & Air Bag Kit system has you covered and provides the new standard in comfort and weight carrying adjustability.

Gross Vehicle Mass (GVM) Upgrade

A GVM upgrade allows your vehicle to safely carry more than the original maximum weight and ensures that your vehicle is GVM legal in all states of Australia.

LIGHTING

Shine the light on the road ahead with a selection of driving lights to suit your driving style. Choose from a variety of options such as spot, flood or combination lights to suit your ideal set-up.

ARB Intensity IQ
ARB Intensity IQ has been developed from the ground up with performance front of mind, whilst delivering a design that complements modern vehicle styling and bar work. Packed with unique features, Intensity IQ sets a new level of driving light design and usability.

ARB Intensity V2
Featuring 21 or 32 LEDs in spot or flood beam for the best use of light for your requirements, ARB Intensity V2 Driving Lights are protected against radio frequency and electromagnetic interference, and have virtually indestructible polycarbonate lenses.

ARB Intensity Solis
The ARB Intensity Solis Driving Lights have 21 or 36 OSRAM LEDs and a unique dimming feature allowing five preset outputs to alter the intensity of light. These have interchangeable red and black bezels, making the Intensity Solis lights suit your aesthetic requirements.

BASE Rack Lighting
The BASE Rack Lighting not only complements the sleek design and mounting system of the BASE Rack but provides instant lighting wherever it is needed most.
The ARB BASE Rack Light Bar and BASE Rack Auxiliary Light both have a unique reflector design to provide optimum distance and width.

Bushranger Night Hawk Variable Series
The Night Hawk Variable Series lights deliver versatile, high-performance lighting designed to adapt to any driving condition. Engineered with advanced optics and durable materials, this series of lights offers user control for maximum visibility on and off the road. With three different models to choose from, they are ideal for 4WDers seeking performance and the ultimate control.

AIR SYSTEMS & AIR LOCKER

ARB's world-class air systems will take you anywhere you choose to go.

Air Locker
ARB Air Locker locking differentials allow you to tackle the toughest terrain with confidence. As the world's premium selectable locker, and the locker of choice for gruelling 4WDers and rock racers throughout the world, ARB Air Lockers will keep you moving regardless of the conditions.

Air Compressors & Air Systems
ARB's range of brushed and brushless compressors, both on board and portable, deliver class-leading flow rates for quick tyre inflation and Air Locker activation. A custom bracket system integrates seamlessly into your vehicle to maximise space.

ELECTRICAL

Adding additional lighting options such as driving or auxiliary lights will require electrical components to connect and control them. ARB's range of specific solutions is there to help.

LINX Vehicle Accessory Interface
LINX is a unique modern controller that declutters the dashboard and centralises the command of vehicle accessories by replacing classic switches, gauges and monitors with one sleek and smart driver interface. Built on an expandable platform, LINX will continue to evolve your on and off road driving experience both now and into the future.

LINX A-Pillar Bracket
To complement ARB's LINX Vehicle Accessory Interface, the LINX A-Pillar Bracket mounts the LINX display screen in a safe and easy-to-reach location. Utilising the LINX mount, the display can be orientated to the desired position so each time the display is returned to the vehicle, it's always in the optimal position.

Slimline 100 12V/100Ah Lithium Ion Phosphate Battery
Take control of your off road adventures with the ARB Slimline 100 12V/100Ah Lithium Iron Phosphate Battery. Designed with innovative features, it keeps you powered up while enjoying life's simple pleasures.

OFF ROAD ESSENTIALS

Always take the scenic route with a range of products to help you stay off road for longer.

INTERIOR PROTECTION

Providing unbelievable protection against damage from the elements such as sun, dirt, water and debris.

Frontier Long Range Diesel Tank

The ARB Frontier Long Range Tank is setting the benchmark for long range fuel tanks around the world. Manufactured in Australia from a durable and impact-resilient cross-linked polymer designed to flex with the vehicle's chassis, each Frontier Tank offers incredible strength and rigidity, while providing a significant weight reduction over steel long-range tanks. The UV-stable material ensures these tanks will survive in the most hostile environments and allow you to explore more of the off road. With a wall thickness between seven and nine millimetres, every Frontier Long Range Tank is individually pressure tested and backed by an industry-leading warranty.

Portable Frontier Diesel Tank & Wash Station

Designed for convenience and built from a tough, corrosion-resistant, UV-stabilised cross-link polymer, the heavy-duty portable Frontier range is designed to mount under your utility/flatbed tray in front or behind the rear wheels, maximising the space in your tray and keeping weight close to the rear axles.

Seat Covers

ARB Seat Covers are designed to last. These covers are machine washable and UV protected for everyday wear, whilst also being compatible with the vehicle's seat heating and air bags (ADR compliant) to ensure normal seat functionality. Available in both neoprene and canvas materials, these vehicle-specific covers will fit snug to your seats and protect them from spills and any debris you bring in.

Floor Mat

Expertly designed to catch and hold debris, ARB Floor Mats are a waterproof solution that includes secure floor placement and a snug fit to cover all areas of your footwells, even utilising the vehicle's retention clips where applicable.

CAMPING

Take your camping experience to the next level with a range of products designed to improve your trip. From keeping food fresh and drinks cold to getting some shade from the sun, these products are designed with campers in mind.

Esperance 2 Rooftop Tent

The Esperance 2 Rooftop Tent, complete with a lightweight and hard-shell exterior, is suitable for dynamic worldwide climates. With a sleek and contemporary design, an optional shell colour-coding is also available. This rooftop tent is both quick and easy for vehicle mounting, as well as set up and operation with integrated D-handles with key-lockable security.

Flinders Rooftop Tent

The Flinders Rooftop Tent is compact without compromising on camping comfort, from a quick set-up and pack-up to the practicality of storing bedding inside. It features three windows, door entry, skylight and an all-weather ventilation port ensuring you're destination ready.

Simpson Rooftop Tent

The ARB Simpson III Rooftop Tent delivers the ultimate in ease and convenience when travelling. Unfolding in minutes, a rooftop tent provides sleeping quarters off the ground, protected from the elements. All bedding can remain inside the tent during the journey, freeing up vital storage space in the vehicle and allowing the tent to be quickly and easily packed away.

Elements Fridge Freezer

The Elements Fridge Freezer has a stainless steel exterior with anodised aluminium latches and protected placement of electrical connections, making it capable of withstanding any weather conditions. The lid has a gas strut to allow two handed access to the contents. It also features a touchpad that allows for temperature control, low voltage cut-out and security lock. When the lid's open, you have full use of the touchpad but when it's closed, the adjustment is hidden to prevent unwanted changes. The lid can also be locked with a unique user-selected locking code.

ZERO Fridge Freezer

The perfect way to keep cans cold and your meals frozen with the convenience of wireless monitoring and control via your smart device, ARB's range of ZERO dual- and single-zone fridge freezers are the perfect addition to your car. With independently controlled cooling zones to give you the best of both worlds in one fridge, a dual-zone ZERO Fridge Freezer will give you the luxury of fridge and freezer space at the one time, while the single-zone ZERO offers fridge or freezer function to ensure your food stays fresh.

Altitude Rooftop Tent

The Altitude Rooftop Tent has been engineered with a fully automated open and close function including ARB SmartFold™ hinge technology to enfold the canvas, meaning no manual interaction is required. Designed to suit all requirements with a full-sized ladder including steps and handrails for added comfort.

Awnings

ARB Awnings are made from 300gsm PU-coated polycotton rip-stop canvas that is waterproof and UV protected. They feature anodised 25-millimetre aluminium poles with nylon cuff joints and anti-wear points with pegs and reflective guy ropes included. Awnings come in a grey soft case and can come with or without LED lighting. The ARB Awning also has the additional option of coming in an aluminium case, which provides a sleek, stylish look while protecting your awning. This is available in either black or silver.

Slide Kitchen

Featuring a three-burner stove, sink and ample bench space, ARB's fully freestanding Slide Kitchen can be set up in as little as 15 seconds, offering practicality for any tourer. Beyond being one of the most practical features for any 4WD, the Slide Kitchen also boasts an innovative user-friendly design.

ARB accessorised vehicles shown with optional accessories depicted throughout this publication are for illustration purposes only. Current features and specifications may vary. Not all accessories are available on or compliant for all model variants. Accessories depicted comprise ARB and aftermarket accessories. ARB accessories as fitted to vehicles are covered by the ARB and product-specific warranty. Terms and conditions apply, for full details please visit our Warranties page: arb.com.au

Please check with your local ARB Store or Stockist to confirm pricing, availability, compatibility, specific vehicle applications or for any other queries. Always consider the mass of your load and your selected accessories to ensure your vehicle will not exceed vehicle and accessory load limits. The illustrations used are not an indication or promise that the accessories and/or vehicle shown is compliant in your country, state or location.

All efforts are made to ensure images are accurate representations of the actual product; however, some images are computer-generated renders. Appearance of the actual product may differ due to print quality or other factors and customers are advised to satisfy themselves of the features of the actual ARB accessories.
